**N.U. SYNERGY
LIMITED**

RC: 1630010

**Trusted partnerships, proven performance
—delivering comprehensive oil & gas solutions
from exploration to retail across Nigeria.**

A Message From Our CEO

Powering Progress, Delivering Excellence

At N.U. SYNERGY, we see energy not just as a commodity, but as a catalyst for growth, innovation, and transformation. Our journey began with a bold ambition – to build an indigenous, independent oil and gas company that could stand shoulder to shoulder with the world's best, while remaining deeply rooted in Nigeria's unique landscape.

Today, that vision lives in every product and service we deliver, every partnership we forge, and every community we serve. We provide solutions across the entire value chain: upstream exploration and drilling, midstream haulage and logistics, downstream trading and retail, as well as capacity building through consulting and training. Our success is built on over 15 years of industry expertise inherited from our parent company, UIG Petroleum, combined with a fresh perspective and innovative approach that enables us to seize opportunities others might overlook.

We are defined by silent professionalism – the discipline of doing the hard work, solving complex problems, and achieving results without noise or compromise. This mindset has shaped a culture where excellence is not an aspiration but a standard, where safety is non-negotiable, and where every promise to our clients is delivered with precision and reliability. Our record speaks for itself, from upstream drilling to nationwide fuel distribution and retail operations.

What truly sets us apart is our focus on people – our customers, our employees, our partners, and the communities whose lives are impacted by our company.

We invest in local talent, empower communities, and prioritize local content while maintaining world-class standards. In doing so, we ensure our growth is shared and our impact is lasting.

Looking ahead, we embrace a future that demands both resilience and reinvention. As the global energy landscape evolves, N.U. SYNERGY will remain a trusted partner – expanding our services, innovating with purpose, and delivering value that endures. Our promise is clear: to deliver energy with integrity, to power progress sustainably, and to leave behind a legacy of trust for Nigeria and the world.

I invite you to join us on this extraordinary journey as we continue to power Nigeria's energy future. Together, we will not only achieve unprecedented business success but also contribute meaningfully to Nigeria's energy security, economic development, and global competitiveness in the oil and gas sector.

Najjashi Uba
CEO, N.U. SYNERGY

Company Overview About N.U Synergy

N.U. Synergy Limited is an indigenous Nigerian oil and gas company, registered with the Corporate Affairs Commission in November 2019 under registration number RC 1630010. As a subsidiary of U.I.G Petroleum and Transport Investment Limited, we inherit a legacy of over 15 years of industry expertise whilst bringing fresh perspective and modern capabilities to Nigeria's energy sector.

Our name embodies our commitment: we are trusted, effective, and faithful partners to our clients. "Synergy" reflects our collaborative approach—working seamlessly with stakeholders across the energy value chain to deliver optimal outcomes.

Established to provide innovative solutions using cutting-edge technology, N.U. Synergy has rapidly evolved into a multi-billion naira enterprise.

We offer comprehensive oil and gas services spanning upstream exploration and production, midstream transportation, and downstream refining and retail operations. Our technical capabilities include oilfield development, drilling operations, engineering design services, operations and maintenance, and environmental engineering services.

Operating primarily across Nigeria's northern regions—with strategic presence in Kano, Bauchi, Abuja, Jigawa, Kebbi, Katsina, Gombe, and Sokoto—we maintain robust supply agreements with major oil companies including Total Energies, ExxonMobil, MRS, and independent marketers such as Rainoil, AYM Shafa Oil, and AA Rano Oil.

We are silent professionals who accomplish our mission discreetly, with level-headedness and precision. Our focus remains singular: ensuring total client satisfaction by helping partners achieve their operational and commercial objectives efficiently and effectively.

Built on almost two decades of proven excellence from U.I.G Petroleum, N.U. Synergy provides innovative solutions and unprecedented value with unwavering integrity.

Our Heritage & Evolution

N.U. Synergy Limited's foundation rests upon the solid bedrock of U.I.G Petroleum and Transport Investment Limited, established in June 2009 and led by our visionary founder, Alhaji Ubale Ismail Gaya. His decades of industry experience have shaped our corporate philosophy and operational standards.

Since commencing operations in 2019, N.U. Synergy has experienced accelerated growth trajectory, systematically leveraging the qualitative leadership and highly competent management team that governs our parent company. This strategic alignment has enabled us to rapidly establish credibility, secure key partnerships, and expand our operational footprint across Nigeria.

Our exponential growth reflects a commitment to excellence and our ability to scale operations whilst maintaining the highest standards of service delivery.

We have systematically built our capabilities across multiple financial institutions, including partnerships with Optimus Bank, Coronation Merchant Bank, Lotus Bank, Jaiz Bank, and Taj Bank, ensuring robust financial infrastructure to support our expanding operations.

Today, N.U. Synergy stands as a dynamic, indigenous oil and gas enterprise—combining youthful energy with decades of accumulated wisdom, ready to shape Nigeria's energy future.

**Built on integrity, driven by
commitment—our core
values guide every decision,
every operation, every part-
nership.**

Vision, Mission & Core Values

VISION & MISSION

Our Vision

To become the preferred indigenous oil and gas company in Nigeria and beyond, recognised for operational excellence, sustainable practices, and unwavering commitment to stakeholder value.

Our Mission

To create unprecedented value for our clients, shareholders, and employees through innovative solutions, operational excellence, and sustainable business practices across the energy value chain.

Our Core Values

CORE VALUES

Accountability

We take ownership of our actions and decisions, ensuring transparency and responsibility in all our operations. Every team member understands their role in delivering excellence and upholding our corporate reputation.

Commitment

We are dedicated to exceeding expectations, delivering on promises, and maintaining the highest standards of service. Our word is our bond, and we pursue excellence relentlessly.

Respect

We value every stakeholder—employees, clients, partners, and communities. Mutual respect underpins our corporate culture, fostering collaboration and long-term relationships built on trust.

Integration

We believe in holistic solutions that bring together diverse expertise, technologies, and perspectives. Our integrated approach ensures seamless operations across the entire energy value chain.

Consistency

We deliver reliable, predictable results through standardised processes, proven methodologies, and unwavering adherence to best practices. Our clients trust us because we consistently deliver.

Responsibility

We recognise our duty to operate safely, protect the environment, support communities, and contribute positively to Nigeria's sustainable development. Corporate citizenship is fundamental to who we are.

**N.U. SYNERGY
LIMITED**

RC: 1630010

**Our team brings decades of
experience, strategic foresight,
and an unshakable commitment
to operational excellence.**

Management Team

Our experienced leadership team brings decades of industry expertise, strategic vision, and unwavering commitment to operational excellence, driving N.U. Synergy's growth across Nigeria's energy sector.

ALHAJI NAJJASHI UBA
CHIEF EXECUTIVE OFFICER (CEO)

As Chief Executive Officer of N.U. Synergy Limited, Alhaji Najjashi Uba provides strategic oversight of all operations including retail networks, sales, logistics, and financial management. Under his leadership, the company has achieved exponential growth, expanding from initial operations to a multi-billion naira enterprise operating across eight northern states.

He drives the company's strategic expansion programme and upholds the operational excellence standards that position N.U. Synergy as Nigeria's preferred indigenous energy solutions provider.

OYEDEJI OLUWASEGUN

MANAGING DIRECTOR

Oversees our marine logistics, trading, depot operations, and financial performance. He ensures operational efficiency across N.U. Synergy's critical port facilities and terminals, coordinating vessel operations and maritime logistics that connect international supply chains to domestic distribution networks.

✉ Email: Oluwasegunoyedejiadegoke@nusynergy.ng

NAZIR D. TANKO

HEAD OF COMMERCIAL

Directs our commercial operations and market expansion across the company's operational footprint. He oversees sales strategy execution, customer relationship management, market analysis, and pricing optimisation, driving exceptional revenue growth in Nigeria's competitive energy sector.

✉ Email: Nazirtanko@nusynergy.ng

ROZINA B. NEGUSSIE

INTERNATIONAL HEAD OF TRADE

Leads our crude oil and petroleum products trading across global markets. She manages supplier and buyer relationships whilst developing commercial opportunities in emerging crude flows, ensuring competitive pricing and reliable supply that maximises value for clients.

✉ Email: Rozina@nusynergy.ng

ABUBAKAR UMAR BOYI

CHIEF FINANCIAL OFFICER (CFO)

Leads our financial strategy, stakeholder relations, and corporate development. He oversees finance, HR, business development, and IT functions whilst managing banking relationships across multiple financial institutions, maintaining robust financial controls and regulatory compliance.

✉ Email: Abubakar.boyi@nusynergy.ng

AMINU TAOFEEK ENESI

EXECUTIVE PA TO THE CHAIRMAN

Provides strategic, technical and operational support ensuring efficient execution of executive directives and corporate objectives. Recognized for his professionalism and results-driven approach, he combines technical expertise with organizational insight to support N.U. Synergy's growth and operational excellence.

✉ Email: TaofeekPA@nusynergy.ng

PRECIOUS ELVIS

HEAD OF DOMESTIC SALES

He oversees sales operations across Nigeria, developing and implementing strategies that drive revenue growth and market expansion. He manages customer relationships, forecasts market trends, and identifies new opportunities whilst ensuring achievement of sales targets and KPIs.

✉ Email: Elvispreciousnusynergy@gmail.com

Governance & Ethical Leadership

Leadership Experience

Our management team shares governance responsibilities with U.I.G Petroleum and Transport Investment Limited, leveraging over 15 years of collective industry experience under the leadership of Alhaji Ubale Ismail Gaya, Executive Chairman of U.I.G Group of Companies.

We operate a governance framework that ensures ethical conduct, transparency, accountability, and compliance across all operations. Our leadership team brings decades of industry experience combined with commitment to highest governance standards.

Corporate Governance Principles

Board Oversight

Our governance structure provides clear oversight, strategic direction, and accountability. The board ensures alignment between strategic objectives and operational execution.

Management Accountability

Our management team operates with clear authority, defined responsibilities, and accountability for performance, compliance, and risk management.

Transparency

We maintain transparent operations with appropriate disclosure to regulators, shareholders, and stakeholders. Our financial reporting, regulatory compliance, and corporate communications reflect our commitment to openness.

Ethical Conduct

We conduct business with integrity, honesty, and fairness. Our code of conduct establishes clear expectations for ethical behaviour applicable to all personnel.

Compliance Framework

Regulatory Compliance

We maintain comprehensive compliance programmes ensuring adherence to Nigerian corporate law, tax regulations, industry-specific requirements, and international standards where applicable.

Certifications & Licences

We hold all required operating licences, permits, and certifications including:

- Corporate Affairs Commission registration
- Department of Petroleum Resources permits
- Import/Export permits (IMPEX)
- Tax clearance certificates
- PENCOM compliance
- ITF registration
- NSITF compliance
- Public procurement registration

Internal Controls

We maintain robust internal controls over financial reporting, operations, and compliance. Our internal audit function provides independent assurance that controls operate effectively.

Risk Management

Our enterprise risk management framework identifies, assesses, and manages risks across strategic, operational, financial, and compliance dimensions.

Diversity, Inclusions & Workplace Culture

Empowering Our Greatest Asset

We are committed to recruiting, developing, and retaining a high-performance workforce reflecting Nigeria's diversity and operating within a culture of respect, collaboration, and excellence.

Workforce Philosophy

We recognise that our workforce represents our core strength. Our mission includes attracting top talent, developing capabilities, and creating an environment where people thrive and contribute their best.

Competency Assurance

We maintain systematic approaches ensuring our staff possess significant and relevant experience relative to their assigned responsibilities. Regular competency assessments and training maintain workforce capabilities.

Regional Representation

Operating across multiple Nigerian states, we employ personnel from diverse ethnic and regional backgrounds, fostering inclusion and leveraging varied perspectives.

Diversity, Inclusion and Equal Opportunity

We provide equal employment opportunities regardless of gender, ethnicity, religion, or background. Advancement is based on performance, capability, and potential.

Professional Development

We invest in our people through training, mentoring, and career development opportunities. We support employees in building skills and advancing their careers.

Full-Spectrum Oil & Gas Solutions

Upstream, Midstream and Downstream

Integrated Oil & Gas Services Across the Value Chain

N.U. Synergy delivers comprehensive oil and gas services across Nigeria's entire value chain, from upstream exploration, drilling, and production through midstream pipeline transportation and processing to downstream refining, distribution, and retail operations.

Our integrated team of engineers and geoscientists combines global best practices with local expertise to safely and efficiently manage hydrocarbon assets from reservoir to consumer while ensuring regulatory compliance and operational excellence.

Upstream Operations

Exploration, Drilling & Production

Exploration Services

We conduct comprehensive site surveys combining geological assessments and advanced seismic technologies to identify promising hydrocarbon prospects. Our geoscientists utilise state-of-the-art interpretation tools to reduce exploration risk and maximise discovery potential.

Drilling Excellence

Our drilling operations leverage experienced personnel familiar with the latest technologies deployed on modern drilling platforms. We provide supply and support services for light and heavy-duty drilling rigs, ensuring 24/7 operational capability. Our technical teams understand draw works, mud pumps, thrusters, and advanced drilling systems that enable efficient well construction.

Field Development

We specialise in transforming discoveries into producing assets through comprehensive field development planning. Our services include reservoir characterisation, production forecasting, facilities design, and integrated project execution leading to first oil.

Production Management

We provide ongoing operations support including production optimisation, facility maintenance, and asset integrity management. Our approach ensures maximum recovery whilst maintaining safety and environmental standards.

Specialised Services

Geotechnical and foundation investigations for rigs and platforms
Geophysical wireline services
Oilfield solid control and filtration systems
Marginal field commercialisation
Appraisal and maturation of exploration opportunities
Asset sales and divestment support

Our globally integrated network of geologists, hydrogeologists, geochemists, and engineers brings international best practices to every project whilst navigating complex local regulatory environments.

Midstream Operations

Transportation & Logistics

Transportation and logistics form the critical link between production and markets. N.U. Synergy operates comprehensive midstream infrastructure ensuring safe, efficient, and reliable product movement across Nigeria's demanding operational environment.

**From coastal terminals to retail forecourts,
we are your trusted partner for safe, effi-
cient petroleum products transportation
and distribution.**

Maritime Logistics

Our coastal operations manage vessel chartering, cargo handling, and maritime logistics for crude oil and petroleum products. We maintain strategic relationships with ship owners and operators, ensuring cargo security and schedule reliability.

Road Transportation

Through our extensive fleet of petroleum tankers, we provide land-based transportation services connecting terminals, depots, and retail outlets. Our transport operations maintain the highest safety standards with rigorous driver training, vehicle maintenance protocols, and real-time fleet monitoring.

Storage & Distribution

We operate and access strategic storage facilities enabling efficient inventory management and supply chain optimisation. Our distribution network ensures product availability even during supply disruptions or seasonal demand fluctuations.

Supply Chain Management

Our integrated supply chain management approach coordinates product procurement, transportation scheduling, inventory control, and delivery execution. This systematic approach minimises costs whilst ensuring reliability.

Safety & Compliance

Every transportation operation adheres to stringent safety protocols. Our vessels, vehicles, and facilities undergo regular inspections and maintenance. We maintain comprehensive insurance coverage and emergency response capabilities.

Operational Excellence

We maintain a short chain of command facilitating rapid decision-making and operational agility. This enables us to respond quickly to changing market conditions, client requirements, or operational challenges.

Through our sister company U.I.G Petroleum, our fleet travels extensively across Nigeria annually, providing the essential link between production centres and market destinations, reliably delivering products to customers nationwide.

Downstream Operations

Refining, Marketing & Retail

20+

Fuel Stations Across 20 States

Our strategic retail presence powers Nigeria's commerce through efficient petroleum products logistics and distribution networks.

Marketing & Retail

N.U. Synergy's downstream operations bring energy products directly to Nigerian consumers and businesses through comprehensive marketing, trading, and retail services. We understand that every market presents unique characteristics, and we develop tailored solutions meeting specific regional requirements.

Petroleum Products Marketing

We operate as an independent petroleum products marketer with nationwide supply capabilities. Our procurement relationships span major oil companies including Total Energies, ExxonMobil, and MRS, alongside strong partnerships with independent marketers such as Rainoil, AYM Shafa Oil, and AA Rano Oil. Additionally, we maintain Bulk Purchase Agreements (BPA) with the Pipeline and Product Marketing Company (PPMC).

Product Portfolio

Premium Motor Spirit (PMS/Petrol)
Automotive Gas Oil (AGO/Diesel)
Low Pour Fuel Oil (LPFO)
Heavy Fuel Oil (HFO)
Liquefied Petroleum Gas (LPG)
Industrial Gases & Gas Mixtures
Jet Fuel & Aviation Gasoline

Retail Excellence

Our retail service stations deliver premium customer experiences on Nigerian roads and motorways. Each facility offers:

High-performance fuels meeting stringent quality standards
Premium lubricants optimised for modern engines
State-of-the-art car wash systems with environmentally-friendly technology
Convenience retail offerings
Clean, well-maintained facilities

Lubricants & Specialty Products

We supply comprehensive ranges of quality lubricants and greases to commercial and individual motorists. Our technical advisers help clients select optimal products that maximise equipment efficiency, prolong capital equipment life, and reduce maintenance costs.

Trading Operations

Our trading desk actively buys and sells crude oil and petroleum products. We understand market fundamentals, maintain long-term relationships with suppliers and buyers, and actively develop projects related to existing and emerging crude oil flows.

National Operations & Footprint

Where We Operate

N.U. Synergy Limited maintains strategic operational presence across Nigeria's key oil & gas corridors, with particular strength in the northern regions where we have established comprehensive infrastructure and market leadership.

Operational Headquarters

Our corporate headquarters is located at 78 AA Rano Street, Maiduguri, with our principal operations centre in Kano, which serves as the hub for our northern operations.

Retail Network

We operate multiple retail service stations strategically positioned across: Kano, Bauchi, Abuja (Federal Capital Territory), Jigawa, Kebbi, Katsina State, Gombe, Sokoto States.

Logistics Infrastructure

Through our integrated transport and logistics network, we maintain efficient supply chains connecting coastal terminals to inland distribution points, ensuring reliable product availability across our operational footprint.

Coastal Operations

Our coastal operations, managed through specialised teams, handle importation, storage, and primary distribution of petroleum products, linking international supply sources to domestic demand centres.

Expansion Strategy: Our strategic roadmap includes expansion to all 36 states of the Nigerian federation, systematically building presence in underserved markets whilst consolidating our leadership in existing territories.

The image shows the Nu Synergy logo in red and white, mounted on a building facade. The building has a modern design with large windows and a prominent entrance. The logo features a stylized flame or drop shape next to the company name.

Procurement & Supply Chain

Oil & Gas Procurement Services

In today's complex energy environment, effective procurement and supply chain management directly impact project success. N.U. Synergy serve as a one-stop oil & gas procurement provider, managing purchasing portfolios, commissioning purchases, and handling administrative and logistical procedures. Our mission is to deliver cost-effective, timely procurement whilst ensuring quality and compliance.

Service Offerings

Strategic Sourcing

We identify and qualify suppliers, negotiate framework agreements, and establish Approved Vendor Lists (AVL) ensuring access to quality materials and equipment at competitive prices.

Materials Management

From requisition through delivery, we manage the complete materials cycle. Our systems provide real-time visibility of procurement status, inventory levels, and delivery schedules.

Logistics Coordination

We coordinate international and domestic logistics including freight forwarding, customs clearance, warehousing, and last-mile delivery to project sites.

Technical Procurement

Our engineers work alongside procurement specialists ensuring technical specifications are met, equipment performance is guaranteed, and materials are fit for purpose.

Supply Categories

Upstream Equipment & Materials

Drilling equipment and consumables
Mudding materials and chemicals
Wellhead equipment
Production equipment
Subsea equipment

Midstream Materials

Pipeline materials (line pipe, fittings, valves)
Compression equipment
Pumping systems
Storage tanks

Downstream Equipment

Refinery components
Petrochemical equipment
Terminal equipment
Retail station equipment

Vendor Management

We maintain relationships with reliable partners specialised in engineering sourcing, enabling supply of steel products, components, parts, and equipment for oil, gas, petrochemical, offshore, and water-related projects from global sources.

Our procurement and project management systems ensure cost, schedule, and quality remain highly visible and monitored throughout the supply chain.

The background of the page is a photograph of an oil rig. In the foreground, a Black man with a short beard and mustache is looking directly at the camera. Behind him, the complex structure of an oil rig is visible, including pipes, ladders, and a platform with a flame coming from it. The sky is a clear blue.

Engineering & Technical Services

Oil & Gas Engineering and Management Services

N.U. Synergy provides comprehensive engineering services across the complete asset lifecycle, from conceptual studies through detailed design, procurement, construction, commissioning, and ongoing operations support.

Engineering Disciplines

Process Engineering

Our process engineers design efficient, safe, and economical processing facilities. We conduct process simulations, equipment sizing, and optimisation studies ensuring facilities perform reliably whilst meeting regulatory requirements.

Mechanical Engineering

We provide mechanical design services for pressure vessels, rotating equipment, static equipment, and materials selection. Our mechanical engineers ensure equipment reliability and long-term asset integrity.

Pipeline Engineering

Our pipeline specialists design crude oil and products pipelines, conducting route selection, hydraulic analysis, materials specification, and integrity management planning.

Civil & Structural Engineering

We deliver civil and structural designs for production platforms, onshore facilities, tank farms, and associated infrastructure, ensuring structures withstand operational loads and environmental conditions.

Electrical & Instrumentation

Our E&I engineers design power distribution systems, control systems, instrumentation packages, and automation solutions that ensure safe, efficient facility operations.

Engineering Services Scope

Feasibility Studies & Conceptual Design

We evaluate project viability through comprehensive technical and economic analyses, identifying optimal development concepts.

FEED & Detailed Engineering

From Front-End Engineering Design through detailed engineering documentation, we deliver complete engineering packages ready for construction.

3D Plant Modelling

We utilise advanced Plant 3D software creating detailed facility models that enable clash detection, construction planning, and operations visualisation.

HAZOP & Safety Studies

Our safety specialists conduct Hazard and Operability studies, Design Hazard analyses, and production assurance studies ensuring inherently safe designs.

Project Management

Our experienced project managers coordinate multidisciplinary teams, manage schedules and budgets, and ensure quality delivery throughout the project lifecycle.

Consulting Services

Oil & Gas Consulting Services

N.U. Synergy provides specialist consulting services drawing upon deep industry knowledge, technical expertise, and best-practice methodologies. Our consultants understand the challenges facing oil and gas operators and deliver pragmatic solutions.

Technical Consulting

Reservoir Engineering

We provide reservoir characterisation, simulation, and management consulting supporting optimal field development and production strategies.

Drilling & Completions

Our drilling specialists offer well design, drilling programme development, and completions optimisation services.

Facilities Engineering

We conduct facilities studies, debottlenecking analyses, and brownfield modification designs extending asset life and improving performance.

Strategic Consulting

Strategic Planning

We assist clients in developing corporate strategies, portfolio optimisation, and growth plans aligned with market conditions and corporate capabilities.

Risk Management

Our risk specialists conduct risk assessments, develop mitigation strategies, and establish risk management frameworks protecting value.

Due Diligence

We conduct technical, operational, and commercial due diligence supporting acquisition and divestment decisions.

HSE Consulting

Safety Management

We develop safety management systems, conduct safety audits, and provide safety culture improvement programmes.

Environmental Services

Our environmental specialists conduct environmental impact assessments, site remediation planning, and environmental compliance support.

Geotechnical Services

We provide geotechnical investigations supporting foundations design for rigs, platforms, and onshore facilities.

Flexible Delivery

We offer flexible project delivery ranging from large programme management to site-specific support. Our adaptable approach allows us to work within various procurement structures and strategies based on client needs.

Our consulting network comprises technical experts who understand industry best practices and expectations related to safety, security, health, environmental management, and operational excellence.

Manpower & Training Services

Technical Manpower and Training Consulting Services

Manpower Services

N.U. Synergy brings extensive experience recruiting personnel for all expertise levels across the oil and gas sector. We understand the unique requirements of energy operations and identify candidates possessing the technical skills, safety awareness, and professional attitudes essential for success.

Recruitment Scope

Technical specialists (Engineers, Geoscientists, Technicians), Operations personnel, Maintenance craftsmen, HSE professionals, Project managers, Administrative support staff

Our rigorous selection processes assess key skills and experience ensuring candidates possess significant and relevant experience relative to assigned roles. We conduct technical assessments, reference checks, and competency verifications maintaining quality standards.

Training Services

Well-trained personnel form the foundation for achieving corporate goals. Our training programmes, delivered by experienced industry professionals, build competencies across technical and managerial disciplines.

Technical Training

Equipment operation and maintenance
Process operations
Instrumentation and control systems
Reliability and condition monitoring
Testing, balancing, and vibration analysis
Industry-specific technologies

HSE Training

Safety awareness and procedures
Emergency response
Environmental compliance
Risk assessment methodologies

Managerial Training

Leadership development
Project management
Operations management
Strategic planning

Our expert trainers possess extensive field experience, ensuring training content reflects real-world conditions and challenges. We offer customised training programmes tailored to specific organisational needs and competency gaps.

Commitment to Development

We support both government and private organisations in building indigenous capabilities within Nigeria's oil, gas, and energy industries, contributing to national economic development through skills transfer and capacity building.

Strategic Partnerships & Collaborations

**N.U. SYNERGY
LIMITED**

RC: 1630010

Our success is amplified through strategic partnerships spanning the oil & gas value chain. We collaborate with industry leaders, government agencies, and complementary service providers delivering integrated solutions to our clients.

Our Key Clients

Trusted by Industry Leaders Across The Globe

N.U. Synergy serves a diverse portfolio of clients across Nigeria's energy value chain, from multinational oil and gas operators to government agencies, commercial enterprises, and thousands of retail customers. Our clients choose us for our unwavering reliability, technical competence, operational flexibility, and commitment to integrity.

We measure success not by our activities but by our clients' satisfaction and achievement of their objectives. Through our silent professionalism and client-centric approach, we have built enduring relationships founded on trust, consistent delivery, and genuine understanding of each client's unique challenges and requirements.

Key Partners & Associates

Strength Through Strategic Alliances

Our collaborative approach and commitment to integration enable us to deliver comprehensive solutions through trusted alliances across the oil and gas industry. We maintain robust supply and distribution relationships with leading international oil companies including Total Energies, ExxonMobil, and MRS, alongside strong partnerships with independent marketers such as Rainoil, AYM Shafa Oil, Silkim Group, and AA Rano Oil.

Our Bulk Purchase Agreements with the Pipeline and Product Marketing Company (PPMC) ensure direct access to domestic refinery products, whilst quadripartite warehousing agreements with coastal operators enable efficient importation and distribution. We collaborate closely with the Nigerian Midstream and Downstream Petroleum Regulatory Authority (NMDPRA), maintaining full regulatory compliance. These integrated partnerships with industry leaders, technology providers, and regulatory bodies enable us to deliver comprehensive solutions and exceptional value to our clients.

Sustainability & ESG Commitment

At N.U. Synergy we balance economic performance with environmental stewardship and social responsibility. Our commitment to sustainability guides strategic decisions and daily operations.

Environmental Stewardship

Emissions Management

We actively work to minimise greenhouse gas emissions across our operations through efficiency improvements, technology adoption, and operational best practices. Our facilities implement emissions monitoring and reduction programmes.

Waste Management

We maintain comprehensive waste management systems ensuring responsible handling, treatment, and disposal of operational wastes. Where possible, we implement waste reduction and recycling initiatives.

Environmental Compliance

All our operations adhere to Nigerian environmental regulations and, where applicable, international environmental standards. We conduct regular environmental monitoring and audits ensuring continued compliance.

Corporate Social Responsibility (CSR)

Community Development

We invest in the communities hosting our operations, supporting education, healthcare, infrastructure, and economic development initiatives. Our community programmes are developed through consultation with local stakeholders ensuring relevance and impact.

Indigenous Participation & Local Employment

We prioritise employment of qualified local personnel, contributing to regional economic development whilst building operational relationships with host communities. We actively promote local content and participation across the energy value chain.

Corporate Governance & Compliance

We maintain robust corporate governance structures ensuring transparency, accountability, and ethical conduct. Our board and management team operate with integrity, guided by clear policies and procedures. We comply fully with Nigerian corporate, tax, and regulatory requirements. Our operations are supported by appropriate licences, permits, and certifications maintained through rigorous compliance programmes.

Healthy, Safety, Security & Environment

Safety: Our Foremost Priority

At N.U. Synergy, nothing is more important than the health and safety of our people, the security of our assets, and the protection of the environment. Our HSSE commitment forms the foundation of how we conduct business.

Safety Culture

Zero Harm Philosophy

We aspire to eliminate all injuries, occupational illnesses, and incidents. This ambitious goal drives continuous improvement in our safety systems, procedures, and behaviours.

Leadership Commitment

Safety begins with leadership. Our management team demonstrates visible safety leadership, sets clear expectations, and holds ourselves and our teams accountable for safety performance.

Employee Engagement

Every employee shares responsibility for safety. We encourage hazard reporting, near-miss reporting, and safety suggestions. Our workforce actively participates in safety committees and improvement initiatives.

Safety Management Systems

Risk Assessment

We systematically identify, assess, and control operational hazards. Our risk assessment processes are integrated into planning, design, and operations ensuring risks are managed proactively.

Procedures & Standards

We maintain comprehensive HSE procedures and standards benchmarked against international best practices including OHSAS and ISO standards. These provide clear guidance for safe operations.

Training & Competency

All personnel receive appropriate safety training before beginning work. We maintain competency assurance systems ensuring workers possess required skills and knowledge for their roles.

Incident Management

We investigate all incidents and near-misses identifying root causes and implementing corrective actions preventing recurrence. Lessons learned are shared across the organisation.

Emergency Preparedness

We maintain emergency response plans, trained response teams, and required equipment. Regular drills test our readiness and identify improvement opportunities.

Asset Security

We implement comprehensive security measures protecting our people, facilities, and assets. Our security approach balances physical security, cybersecurity, and personnel security.

Environmental Protection

Our operations comply with environmental regulations and incorporate measures minimising environmental impacts. We conduct environmental monitoring and implement pollution prevention programmes.

N.U. Synergy embraces technology and innovation as essential enablers of operational excellence, efficiency, and competitive advantage.

Tech Innovation

Driving Progress Through Technology

Digital Transformation

Data Analytics

We utilise advanced data analytics to optimise operations, predict equipment failures, and improve decision-making. Our data-driven approach enables proactive management and continuous improvement.

Operational Technology

Our facilities increasingly incorporate automated control systems, real-time monitoring, and remote operations capabilities enhancing efficiency whilst reducing human exposure to hazards.

Supply Chain Digitalisation

We implement digital supply chain solutions providing real-time visibility of inventory, shipments, and deliveries. This transparency enables better planning and faster response to changes.

Technical Innovation

Advanced Engineering

We employ cutting-edge engineering tools including 3D modelling software, simulation platforms, and computational analysis that enable optimised designs and reduced project risks.

Equipment Technology

We continuously evaluate emerging equipment technologies that offer improved performance, reliability, or environmental benefits, selectively adopting solutions that deliver proven value.

Process Optimisation

We apply process engineering expertise and optimisation methodologies to existing operations, identifying opportunities for improved yields, reduced energy consumption, or enhanced product quality.

Knowledge Management

Technical Expertise

We systematically build and maintain technical knowledge bases capturing lessons learned, best practices, and technical standards. This institutional knowledge accelerates problem-solving and maintains quality.

Industry Partnerships

We collaborate with technology providers, equipment manufacturers, and industry peers sharing knowledge and accessing latest developments in energy technologies.

Continuous Learning

Our workforce participates in ongoing technical training ensuring familiarity with latest technologies, methodologies, and industry practices.

Future Outlook & Strategic Vision

Positioned for Sustainable Growth

As Nigeria's energy landscape evolves, N.U. Synergy is strategically positioned to capitalise on emerging opportunities whilst navigating industry challenges. Our vision for the coming decade balances growth ambitions with operational excellence and sustainability.

Strategic Priorities

Geographic Expansion

We will systematically expand our retail network to all 36 states of Nigeria, establishing presence in underserved markets whilst consolidating leadership in existing territories.

Value Chain Integration

We will deepen our integration across upstream, midstream, and downstream operations, enhancing synergies, improving operational efficiency, and capturing greater value from each segment.

Operational Excellence

We will continue investing in our people, processes, and technologies, driving continuous improvement in safety, efficiency, quality, and reliability. Operational excellence remains fundamental to our competitive advantage.

Capability Development

We will expand our technical capabilities, particularly in specialised services where we can differentiate ourselves and deliver superior value to clients. This includes advanced engineering services, digital technologies, and emerging energy solutions.

Market Opportunities

Nigeria's growing economy, expanding population, and industrial development drive increasing energy demand. We are positioned to capture this growth through expanded infrastructure and service offerings.

Energy Transition Considerations

Whilst oil and gas remain central to Nigeria's energy mix for the foreseeable future, we monitor energy transition trends and evaluate opportunities in cleaner fuels, efficiency improvements, and complementary energy solutions aligned with national development priorities.

Quality Assurance & Certifications

Commitment to Quality Excellence

We maintain rigorous quality assurance systems ensuring our products, services, and operations consistently meet or exceed client expectations and regulatory requirements.

Quality Management Systems

Standards Compliance

Our quality management approach is benchmarked against international ISO standards, ensuring systematic processes, continuous improvement, and consistent quality delivery.

Product Quality Assurance

All petroleum products handled through our operations undergo rigorous quality testing ensuring compliance with Nigerian specifications. We maintain laboratory facilities and quality control procedures verifying product specifications before delivery to customers.

Service Quality

We implement service level agreements, performance monitoring, and client feedback mechanisms ensuring our services consistently meet defined standards. Regular service reviews identify improvement opportunities.

Regulatory Certifications & Compliance

Corporate Affairs Commission (CAC)
Registration Number: RC 1630010
Department of Petroleum Resources (DPR) / NMDPRA - We hold current import and export permits, operating licences, and retail station approvals required for petroleum operations.

Federal Inland Revenue Service (FIRS) - We maintain current tax clearance certificates demonstrating full compliance with Nigerian tax obligations.

Pension Commission (PENCOM) - Compliance certification confirming appropriate pension arrangements for our workforce.

Industrial Training Fund (ITF) - Registration supporting workforce development and skills training initiatives.

Nigeria Social Insurance Trust Fund (NSITF) - Compliance with social insurance requirements protecting our workforce.

Bureau of Public Procurement

Registration enabling participation in public sector procurement opportunities.

Health, Safety & Environment Certifications

Our HSE management systems are benchmarked against OHSAS standards and international best practices, ensuring systematic approaches to safety, health, and environmental management.

Continuous Improvement

We conduct regular internal audits, management reviews, and third-party assessments ensuring our quality systems remain effective and continuously improve.

11th June, 2025

The Managing Director,
N.U Synergy Limited
No 78 AA Rano Street,
Maiduguri Road, Hoto, Kano State

Dear Sir/Madam,

NOTIFICATION OF STRATEGIC PARTNERSHIP APPOINTMENT

We are pleased to formally notify you that Dangote Petroleum Refinery & Petrochemicals FZE has appointed N.U Synergy Limited (N.U Synergy) as a strategic partner for the distribution and retail sale of our refined petroleum products across your service stations nationwide.

In recognition of your demonstrated capacity, network coverage, and commitment to operational excellence, we are confident that this partnership will serve as a key driver for increased market penetration, product visibility, and customer satisfaction.

Kindly note that you will be allocated volumes on a "gantry-to-station underground tank" basis, subject to the **terms and conditions** set out below.

1. **Performance Review** – Allocated volumes are subject to periodic review and may be revised upward or downward taking into account N.U Synergy's offtake performance, compliance, and retail penetration, at DPRP's sole discretion.
2. **Pump Price Compliance** – N.U Synergy shall strictly adhere to the prevailing DPRP-approved pump prices at all retail stations.
3. **Prohibition on ATC Resale** – All volumes lifted under this scheme are to be discharged solely at N.U Synergy-branded or otherwise approved retail stations; resale or transfer of Authority-to-Collect (ATC) documents, or any portion thereof, is expressly prohibited.
4. **Retail Station Standards** – N.U Synergy must ensure that each participating retail station maintains exemplary standards of branding, appearance, safety, and housekeeping, in line with NMDPRA guidelines.
5. **Strategic Partnership Agreement** – A comprehensive Partnership Agreement incorporating these terms will be forwarded for execution. The provisions of that Agreement shall, upon signature, supersede any inconsistent terms contained herein.
6. **Network Expansion** – N.U Synergy is encouraged to expand its retail footprint through acquisition, construction, or leasing of additional stations capable of efficiently offtaking the allocated volumes.
7. **Discounted Gantry Pricing** – Partners shall enjoy a negotiated discount on the prevailing gantry price for all volumes lifted under this scheme, the quantum of which shall be communicated in the Product Release Note ("PRN") issued for each lifting.
8. **Credit Facilities** – Subject to satisfactory documentation and the provision of an acceptable bank guarantee, DPRP may extend credit terms to N.U Synergy for product

Directors: Alhaji Aliko Dangote, GCON; Devakumar V.G. Edwin (Indian); Olakunle Alake; Halima Aliko-Dangote.

lifting, the exact tenor and limit of which shall be detailed in the acceptable bank guarantee.

9. Media Visibility – N.U Synergy's strategic partnership status may be acknowledged in DPRP pump-price publications, media releases, and other public communications, thereby affording the Partner additional market visibility.

Please issue a formal Letter of Acceptance, duly executed by two authorised signatories of N.U Synergy, within seven (7) days of the date of this letter. Upon receipt, we will circulate the full Strategic Partnership Agreement and require you to complete the documentation process.

We look forward to a mutually beneficial collaboration and to leveraging our combined strengths in delivering high-quality petroleum products safely, efficiently, and competitively across Nigeria.

Kindly accept the assurances of our highest professional regards.

Yours faithfully,

For: **Dangote Petroleum Refinery & Petrochemicals FZE**

MEMORANDUM OF UNDERSTANDING (MOU)

BETWEEN

KEONAMEX PETROLEUM NIG LTD

N. U. SYNERGY LTD

DATED THIS 15th DAY OF MARCH 2023

ADDENDUM TO MEMORANDUM OF UNDERSTANDING (the "AGREEMENT") DATED DAY OF MARCH 2023, BETWEEN KEONAMEX PETROLEUM NIG LTD ("KEONAMEX") AND N. U. SYNERGY LIMITED ("N.U. SYNERGY")

THIS ADDENDUM is dated this day of March 2023

Keonamex and N.U. Synergy are individually referred to as a 'Party' and collectively as the 'Parties'.

BACKGROUND:

1. The Parties executed the Agreement to outline terms for collaboration in the storage, sales and distribution of petroleum products allocated by the Nigerian Midstream and Downstream Petroleum Regulatory Authority (NMDPRA) through the N11 Portal and marketing through Keonamex's terminal at Warri, Delta State.
2. Consequently, the Parties has agreed as follows:
 - a. Keonamex shall apply for petroleum product (PMS) through the N11 portal separately for both parties and N.U. Synergy shall be saddled with the responsibility of networking the processing approval, product allocation and programming for the allocated products.
 - b. N.U. Synergy shall furnish Keonamex with all information relating to the processing approval, programming of its allocated products PFI.
 - c. Each party shall be responsible for their expenses arising from the approved PFI.
 - d. This Addendum is the first and only amendment to the Agreement as of the date stated above.

NO OTHER CHANGES

Except as otherwise expressly provided in this Addendum, all of the terms and conditions of the Agreement remain unchanged and are in full force and effect.

MISCELLANEOUS TERMS

Capitalized terms not otherwise defined in this Addendum will have the meaning ascribed to them in the Agreement. Headings are inserted for the convenience of the Parties only and are not to be considered when interpreting this Addendum. Words in the singular mean and include the plural and vice versa. Words in the masculine include the feminine and vice versa. No regard for gender is intended by the language in this Addendum.

DISPUTE RESOLUTION

In the event that any dispute or differences arises out of this Addendum or in relation thereto including any dispute relating to validity or effect, parties herein shall use their best endeavour to settle it BUT if parties herein are unable to agree on a settlement, they shall jointly agree on an Arbitrator and the proceedings shall be in accordance with the law in Nigeria PROVIDED that this shall not prejudice any legal actions or enforceable rights that the aggrieved Party may be entitled to.

IN WITNESS WHEREOF the Parties hereto have executed this Addendum the day, month and year first above written.
